COMANCHE, COMANCHE COUNTY, TEXAS JANUARY 4, 1935

NO. 2

NEW COUNTY OFFICIALS SWORN

LACK OF CALICHE HOLDING UP CONSTRUCTION ON NO. 10

20 Years Ago

From The Comanche Chief, January 1, 1915

Retiring Governor O. B. Colquhoun declares that President Woodrow Wilson is an utter failure and says that every policy of the present administration has been wrong. He criticizes Wilson for sending a U. S. warship to Vera Cruz to compel the Mexican government to salute our flag and then withdrawing the ship without getting the salute.

A. F. Holman and Miss Lulu Asstetter were married Wednesday. Ethan Wetzel and Miss Dena Alvins were married Sunday. Barna Riley and Miss Lottie Carpenter were married Sunday.

The Comanche Bachelors entertained their friends at the skating rink with a dance Christmas night.

M. W. Carroll has moved his drug store to the Masonic building.

Captain Bill McDonald, former Texas Ranger and bodyguard for Woodrow Wilson during his campaign for President, was married today to Miss Pearl Wilkinson.

O. C. Johnson, living near Comanche, shot his wife twice, and then killed his father-in-law, Sam Chapin, and then committed suicide. Charlie Culberson says that he will make an announcement at the proper time whether or not he will be a candidate for reelection to the U. S. Senate.

Colquhoun has been absent most of the time the past year on account of illness. Joe Bailey in a letter to L. S. Curtis of Sherman says that he may be a candidate, although he has no desire to return to the Senate and if he could do so it would be at a personal sacrifice.

Our Government has kept England and Germany from restoring their power in Mexico while we have eyed one bandit against another, Colquhoun says.

Honoring Miss Catherine Chilton and Miss French of Kaufman. Mrs. John R. Chilton was the guest of a beautiful appointed Thursday afternoon.

President Woodrow Wilson has sent a protest to England against the seizure of American ships. Thirty-one ships have been seized and held as contrabands of war. They were carrying copper.

In France the armies of the Allies are gradually pushing the Germans off the French soil.

Cotton Grove News: We have one of the best schools of the county and would not trade our property for any in the county. They are Fount Waldrop, Lyla Thompson and Ethel Harris. We have a well organized literary society, and a basketball and baseball team.

Congressman Oscar Callaway was in Sunday from Washington with Mrs. Callaway during the holidays.

The Comanche Public Schools resumed work after the holidays with the largest attendance in history.

Work To Begin On Paving Highway No. 67 In Next 2 or 3 Weeks

Park Huntington, Resident Engineer, is now drawing up plans for hard surfacing Highway No. 10 from the Itham farm just east of Comanche to the Erath County line and has the job just about finished, but the locating of a suitable caliche bed is temporarily holding up its completion, he stated.

Mr. Huntington wants to locate the best caliche possible for the base and wishes to get in touch with any person owning caliche anywhere within two miles of the Highway. When suitable caliche is located, the plans will be pushed rapidly to completion and advertisements for letting of the contract will follow, Huntington said.

De Leon Highway
Crushing rock for the base on Highway No. 67 between Comanche and De Leon got underway this week near De Leon by the Morgan Construction Company which has the contract for hard surfacing the 17.75 mile stretch of road. The rock crushing machine, Huntington said, is located just east of De Leon.

The Engineer stated that work on hard surfacing the road will get underway within two or three weeks, according to weather conditions.

The work will begin at the Comanche square and proceed toward De Leon and will be pushed to completion as rapidly as possible.

WILLIAMS NOW IS MANAGER OF DE LEON STORE

Succeeds Vance Singleton As Head of Pioneer Firm of This County

Harold Williams of the wholesale department of the Higginbotham Bros. & Co. store here was made manager of the De Leon store this week following the resignation of Vance Singleton who has been in charge of the De Leon store for several years.

Mr. Williams has already as-

Dr. C. W. Ory Now Has His Office At Residence Here

Dr. C. W. Ory has moved his office from the Comanche National Bank Annex to his residence at the corner of West 4th Street and Duncan Avenue.

Dr. K. L. Ory will continue to maintain his office in the bank building.

CATTLE BUYING PROGRAM WILL BEGIN ON JAN. 8

Government Buying Will Again Be Done Due To Continued Dry Weather Here

The Government has allotted Comanche County the privilege of buying 1500 more head of cattle from farmers and stockmen, according to County Agent J. A. Barton, who stated that the new buying program is the result of continued dry weather here. Buying will begin on January 8th and continued through the 11th.

The County Agent stated that it is the opinion of those in charge that this 1500 quota is sufficient for all who want to sell and those who wish may sign up at the following places: Proctor, Monday, Jan. 8th; De Leon, Monday afternoon, Jan. 8th and Tuesday, Jan. 9th at the bank; Gustine, Tuesday, Jan. 9th, and on any day at Comanche. Farmers and stockmen are urged to sign up at the nearest of the above places.

Buying will be done at the following places at the stated time: Jan. 8th, Hasse, 8 to 9 a. m.; Proctor, 9 to 12 noon; Wilson, 1 to 4 p. m.

Jan. 9th, Sipe Springs, 8 to noon; De Leon, 1 to 5 p. m.

Jan. 10th, Gustine, 8 to 11 a. m.; Maxwell, 12 to 2 p. m.; Lamkin, 2 to 5 p. m.

Jan. 11th, Comanche, 8 to 4 p. m.

LYNCHING DATA ISSUED BY NEGRO TO HOLD PEANUT GROWERS MEET

Figures Are Compiled by Head of College for Colored

The following concerning lynchings in the United States during 1934, was prepared by R. R. Morton, president of Tuskegee Normal and Industrial Institute, for the training of colored young men and women.

The Institute was founded at Tuskegee, Alabama by the late Booker T. Washington, noted negro teacher and worker.

Following is the statistics compiled by the college head:

"I send you the following information concerning lynchings for the year 1934. I find according to the records compiled in the Department of Records and Research of the Tuskegee Institute that there were 15 persons lynched in 1934. This is 13 less than the number 28 for 1933; 7 more than the number 8 for 1932; 2 more than the number 13 for 1931; and 6 less than the number 21 for 1930. 8 of the

Vandegriff Now Is Superintendent of Beattie School

Prof. Vandegriff, of Stephenville, was elected Superintendent of the Beattie Schools this week to succeed Eldon Feril who was forced to resign last week on account of ill health following a nervous breakdown.

Mr. Feril was taken to a Dallas hospital for treatment. He was a candidate for County Superintendent last summer, and holds a successful record as a teacher.

Mr. Vandegriff is a graduate of John Tarleton and A. & M. College and has had several years experience as a teacher, most of his work having been in Erath County.

F. A. Wells Gets Position Here With Co. Relief Office

F. A. Wells, of Gustine, head of the Relief Office at that place for the past several months, has been appointed County Case Supervisor for the County Office and has been transferred to the Comanche office.

Miss Lela Thomas will succeed Mr. Wells as Supervisor of the Gustine office.

Mr. Wells has moved his family to Comanche and has an apartment at the R. H. Moore duplex.

BLANTON RENEWS DEATH GLOSES D. C. FUND FIGHT

Attacks Increased Appropriations For City's Relief Purposes

Extending a Christmas greeting card to the press, Representative Thomas L. Blanton of Texas attached to it statistics on relief expenditures in Washington, D. C. and a reiteration of his opposition to any increase in the Federal lump-sum contribution to the upkeep of the District.

In expressing his opposition to the \$1,000,000 increase in the emergency relief appropriation requested by the Commissioners, Blanton, who is ranking Democratic member of the House District Appropriations Subcommittee, declared the "money dole should stop." While furnishing all possible jobs and food to the deserving needy, he said a dole "destroys initiative, self-reliance, energy, thrift and self-respect, and creates lazy, shiftless mendicants."

Presenting His Side.

The House Subcommittee has completed its hearings on the District supply bill and Blanton said in his Christmas greetings that he was presenting facts to offset what he characterized as "city propaganda."

When the hearings are made public, he said, they will show that the Commissioners admit the following:

"That most of the paved streets, bridges, schools, playgrounds, park water system, hospitals, courts, jail, asylums for defectives and other projects were acquired and constructed when the United States paid half of their cost."

"That during the last 20 years

DEATH GLOSES COLORFUL LIFE OF D. DINGWALL

Came To America From Scotland And Spent Three Years In Cavalry Fighting Indians

D. Dingwall, one of the oldest residents of Comanche and for more than fifty years a well known and highly esteemed citizen of this city, died at his home here Friday afternoon, at the age of 90 years, following an extended illness.

Funeral services were held at the Presbyterian Church at 3:30 o'clock Sunday afternoon and interment was in Oakwood Cemetery. Services were conducted by Dr. R. Guy Davis, president of Daniel Baker College, Brownwood, assisted by Rev. Gordon Barrett of Comanche.

Funeral services were under the direction of the local Masonic Lodge. Pallbearers were C. M. Moore, Henry E. Moore, Hill Huddleston, E. E. Anthony, F. L. Little and E. R. Armstrong.

Mr. Dingwall came to Comanche in 1880, when according to his own account of it, "the oak stumps had not been grubbed from the court house square." He made his home in Comanche during the fifty-four years from that date until his death, and was in the shoe repairing business here for many years.

He was born in Dingwall, Scotland on November 11, 1844, and moved to Ontario, Canada, in

ASSISTANTS ARE NAMED TO SERVE NEWLY ELECTED GROUP

Payment of Loan Comes From Iowa

W. D. Jenkins was richer by more than a dollar Monday when he opened a letter in his mail and found enclosed a dollar bill sent to him by an unknown friend. In addition to his dollar, Mr. Jenkins has a renewed confidence in the honesty of his fellowmen.

The dollar bill came in the letter all the way from Iowa and Mr. Jenkins explains it thus: He, being connected with the local relief office, said that one day last fall a transient man came in and asked for groceries for his family, stating that they were traveling through this section and were entirely without funds. Mr. Jenkins explained that under the rules he was not allowed to issue money to transients.

However, he was so impressed with the sincerity of the man that he accompanied him to the E. H. Jones Grocery and gave him a dollar to buy food. The man promised to repay him.

Mr. Jenkins had almost forgotten the incident until he opened his mail Monday.

R. A. LUKER NOW AT STATE CAPITOL

Legislature Will Convene On January 8th

State Representative R. A. Luker, former Comanche County Judge, left his Proctor home Wednesday for Austin where he and Mrs. Luker will be located at 1909 Wilson Street.

The Legislature will convene the second Tuesday in January, which is the 8th. After the Legislature has been organized, it will canvass the vote in the Governor's election and James V. Allred will be inaugurated about a week later, January 16th. Soon after the Legislature convenes, Gov. Miriam A. Ferguson will deliver her final message to that body.

When the Fergusons retire, it will mark the end of a 20 year period since Jim Ferguson first took the oath as Governor of Texas in January, 1915.

Allred will be the youngest person to serve as Governor of Texas with the exception of Dan Moody who was 33 years of age when he took the office in 1927.

E. M. Davis of Brownwood is the new Senator from this district, succeeding the veteran lawmaker, Walter Woodward of Coleman. Davis is no stranger in the Legislature, having represented Brown County as a member of the House. He is also a former County Judge of Brown County.

Cage Tourney Is To Open Today At Dublin High

About twenty schools from as many as six counties will participate in a basketball tournament for boys and girls to be held in the Dublin High School gymnasium Friday and Saturday, Jan. 4 and 5. Jimmie Greenway of Robinson Springs is director of the tournament, according to The Dublin Progress.

Games will begin at 1 o'clock this afternoon when Comyn and Robinson Springs boys start the schedule. Carlton and De Leon girls will meet at 2 o'clock, and Lamkin boys will meet Alexander boys at 3 o'clock.

The night session, beginning at 6:45 o'clock, will match two strong girls' teams in the opener, Robinson Springs vs. Alexander. Following that Comyn girls will play Lingleville.

Though all entries had not been announced, the following schools will probably compete: Comyn, Lingleville, Beattie, Hockley, Indian Gap, Robinson Springs, Morgan Mill, Fairy, Pottsville, Carlton, Cranfills Gap, Coloay, De Leon, Alexander, Lamkin, Keedell, Gustine and Proctor.

More Than Fifty Per Cent Of Comanche County Officers Are Newly Elected

The official family at the Court House underwent more than a fifty per cent change on January 1st when four new county officials in addition to the district and precinct officers were installed.

R. S. McCharen was installed as County Judge and became the first man from the north end of the county to hold that office in more than a quarter of a century. With the exception of R. A. Luker of Proctor who served two terms, most of the Judges in the past have come from Comanche. Judge McCharen, a former school teacher, has lived in the Sabano community for more than thirty years where he took an active part in church and community affairs and was a successful farmer.

I. M. (Mitchell) Davis, farmer of Comanche, Route 1, was installed as Treasurer. Mr. Davis is a native of the county and for several years has been bookkeeper at the Hasse Gin. He was reared in this county and is a member of one of the prominent pioneer families of this section. In addition to attending public schools, he attended a business college.

Hollis Burton of Newburg was installed as County Clerk. He also is a native of Comanche County and a son of one of the well known families of the county. He finished school at Comanche and was later connected with the Higginbotham Lumber Company at Comanche and Brown. Miss Claudia Fisher, deputy under the retiring officer, Bob

HEAD OF WATER BOARD AGREES TO SURVEY OF LEON

Possible That Dam Be Built Where Savannah Empties Into Leon River

Possibility of a lake covering approximately 5,000 acres between Dublin and Comanche is a recent report made by W. P. Hallmark, representative from this area to the Brazos River Conservation and Reclamation Board, according to the Dublin Progress. Hallmark attended the annual meeting of the Board in Temple last week.

"It is possible," Hallmark explains, "that the point on the Leon where the Savannah empties into it above Comanche will be made the site of one of the smaller dams in case the Brazos River conservation program is aided by federal loan." In expectation of this, he says, the chairman of the state water board has agreed to have that area surveyed.

BRIGHTMAN IS APPOINTED TO GOVERNMENT POSITION

Comanche County Sheriff Receives Position With Government As Special Investigator

Dwight Brightman, Sheriff of Comanche County for the past two terms and re-elected for a third term, has been appointed Special Investigator for the Department of Justice at Washington. Mr. Brightman left Friday for Washington where he will take a three months training course before he is assigned some field.

Court To Appoint Successor
The Commissioners Court, it is announced, will appoint a successor to fill out Brightman's unexpired term.

It is reported that several have applied to fill the vacant position. Officials have not stated

when they will act on the matter. Department Is Active

The department to which Mr. Brightman has been appointed is comparatively new and has been enlarged since Roosevelt took office as President and announced a new Federal policy of suppression of crime. Department of Justice officers were responsible for the killing of Dillinger, Pretty Boy Floyd, Baby Face Nelson, the capture of Machine Gun Kelly and other widely known criminals. The duties of the office are varied and have to do with the enforcement of all Federal Criminal Laws. Officers of this Department have been especially active against kidnappers, highwaymen, and bootleggers who sell liquor without the government revenue stamps.

GLASS FACTORY
IS DOING WELL

Interest Here In Situation Due
To Heavy Sand Deposits

Because sand near Comanche was shipped to other points for the manufacture of glass several years ago, there is a latent interest in the glass manufacturing business and the possibility of a factory here.

The following from the Santa Anna News concerning the recently established glass factory in that city shows the possibilities of that industry:

"In an interview given recently by S. A. Coleman, President of the Knappe-Coleman Glass Co., we were pleased to learn of the wonderful progress that has been made by the glass factory since it began operation in May of 1934.

The first shipment of milk bottles was made from the plant on May 30th and since that time sales have increased rapidly and steadily. Connections have been made with large jobbers of milk bottles throughout the South and Middle West and to date several hundred truckloads and carloads of bottles have been shipped.

At the present time, even though the plant has been running to full capacity, 24 hours a day, for the last sixty days, orders are considerably ahead of production. In addition to the orders on hand for immediate shipment, the company has orders booked ahead sufficient to take the entire output of the plant during the coming year, and officers of the concern have been considering putting in additional machinery in order that the output may be doubled.

The value of the plant to the people of Santa Anna is readily apparent when we find that more than forty men are employed steadily. During the seven months that it has been in operation more than \$17,500 have been spent on payrolls alone. In addition approximately \$4,500.00 worth of electricity and \$7,000.00 worth of gas have been used and nearly \$12,000.00 has been paid out on freight.

Most of this money remains in Santa Anna and naturally contributes to the support of every business located in the town. Too much can not be said of the value of this industry to every citizen of Santa Anna and we hope that they in turn will show their appreciation by their continued support and goodwill toward this very worthy enterprise."

THE NEW FORD V-8 FOR 1935

NOW ON DISPLAY

A New Ford V-8 That Brings New Beauty,
New Safety, and a New Kind of Riding
Comfort Within Reach of Millions of People

The New Ford V-8 for 1935 is the biggest and roomiest Ford car ever built. It is a strikingly handsome car, with modern lines and new, luxurious appointments.

But most important of all it is especially designed to give you smooth, easy riding over all kinds of roads—"a front-seat ride for back-seat riders."

This ease of riding is achieved by the use of three basic principles never before combined in a low-price car.

1. Correct distribution of car weight by moving engine and body forward eight and a half inches.
2. New location of seats by which the rear seat is moved forward, toward the center of the car—away from the rear axle and away from the bumps.
3. New spring suspension which permits the use of longer, more flexible springs and increases the springbase to 123 inches.

The result is Center-Poise—which not only gives you a new riding comfort but adds to the stability of the car and its

ease of handling. You can take curves with greater safety.

There are many new features in the Ford V-8 for 1935 which make the car still easier to drive. New brakes give more power for stopping quickly with far less foot pressure on the pedal.

A new type of easy-pressure clutch employs centrifugal force to increase efficiency at higher speeds. New steering mechanism makes the car still easier to handle. New, wider, roomier seats.

The New Ford V-8 for 1935 retains the V-8 engine which has demonstrated its dependability and economy in the service of more than a million owners. There are refinements, but no change in

basic design. You buy premium performance when you buy this Ford V-8—full 85 horsepower and capable of 80 miles an hour. All Ford V-8 cars for 1935 come equipped with Safety Glass throughout at no additional cost.

We invite you to see this New Ford V-8 for 1935 at the showrooms of Ford dealers. You will want to ride in it to drive it yourself. You will find it a new experience in motoring.

FORD V-8 PRICES ARE LOW

12 BODY TYPES—Coupe (5 windows), \$495; Tudor Sedan, \$510; Fordor Sedan, \$575; DE LUXE—Roadster (with rumble seat), \$550; Coupe (3 windows), \$570; Coupe (5 windows), \$580; Phaeton, \$590; Tudor Sedan, \$575; Cabriolet (with rumble seat), \$625; Fordor Sedan, \$635; TOURING SEDANS, with built-in trunk—Tudor Touring Sedan, \$595; Fordor Touring Sedan, \$655.

Lady Says She Took CARDUI for Cramps; Was Soon Relieved

Women who suffer as she did will be interested in the experience of Mrs. Maude Crafton, of Belleville, Ill., who writes: "For several years, I suffered from irregular trouble and cramping. There would be days when I would have to stay in bed. I would get so nervous, I was miserable. My aunt told me to try Cardui. She believed it would build me up, regulate me and help the nervous trouble. I knew after taking half a bottle of Cardui that I was better. I kept on taking Cardui and found it was doing me a world of good. I am in good health, which means a lot to me." Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician. Price \$1.

Time Lost is Money Lost

It costs money to be sick. You see it directly if your pay envelope is short. You lose out on some important work if you live on a farm or if you are one of the few who are not docked for lost time. You can't afford to show up on the job unless you are feeling fit. The boss wants results—not excuses.

How many times do Gas on Stomach, Headache, Sour Stomach, "That Tired Feeling," "That Morning After" Feeling, Neuralgia, Rheumatic, Sciatic, Muscular or Periodic Pains keep you at home or interfere with your doing a full day's work?

All these troubles are caused or made worse by too much acid in your body. To correct this condition take

ALKA-SELTZER

The New Pain Relieving, Alkalizing, Effervescent Tablet.

It is called Alka-Seltzer because it makes a sparkling alkaline drink, and as it contains an analgesic (Acetyl-Salicylate) it first relieves the pain of everyday ailments and then by restoring the alkaline balance corrects the cause when due to excess acid. Alka-Seltzer is pleasant to take, non-laxative.

Why don't you try it? Get a drink at your drug store soda fountain for a nickel. Buy a package for home use.

22 years of Dependable Service

EVERY citizen of Texas can draw inspiration from reviewing the progress of his State during the 22 years which have elapsed since the Texas Power & Light Company was organized. We of this Company have especial pride in this progress because of our contribution to the factors making it possible.

During the last 22 years the population of Texas has increased more than 50 per cent, and the homes of Texas have come to be equipped with labor-saving and leisure-making devices which make possible a standard of living unknown in 1912. An inventory of the modern home reveals that dependable and economical electric service is the basis of today's comforts and conveniences.

The industrial development of Texas during the last 22 years has been substantial. The value of products now manufactured in Texas is almost five times the value of products manufactured in Texas in 1912; the number of wage earners in industries has practically doubled, and the wages which they draw have been almost quadrupled. In these 22 years hundreds of new industries have come into being in the territory served by the Texas Power & Light Company, aided and encouraged by the assurance of a dependable and economical supply of electricity for power. Hundreds of other industries have been modernized and enlarged under the same stimulating influence.

Just how much has the Texas Power & Light Company contributed to progress since it was organized? If we could turn back the calendar to the year 1911 and travel over the territory now served by this Company, here is what we would find: A relatively small percentage of the homes wired for electricity, and the electric service in these homes limited to lights, which were far inferior to electric lights we have today. Few towns and cities had 24-hour service; in most towns the electricity was turned off from bedtime to daylight; most housewives kept candles and kerosene lamps as a stand-by light service; comparatively few industries used electricity for power because it was undependable and too expensive.

The founders of the Texas Power & Light Company, in 1912, laid solid foundations. Because of the nature of the territory to be served, thinly populated and with few cities, they were the first in Texas to apply the high-voltage transmission line as an indispensable means of extending metropolitan-type electric service over a wide area. Without these transmission-line facilities this metropolitan-type service would not now be possible in a majority of the communities served.

The Texas Power & Light Company lines serve 25 communities of less than 100 population; 80 of population between 100 and 300; 61 of population between 300 and 500; 54 of population between 500 and 1,000; 58 of population between 1,000 and 5,000. Service is supplied to only two cities with a population of more than 20,000.

Many communities which we now serve have given up municipally-owned plants in favor of our better service at lower rates. It is not only a matter of great pride to us that we have been able to give our consumers a type of service second to none and of unfailing dependability always, but that we have consistently lowered our rates. Our rates today are less than one-half the rates prevailing in practically every town in which we operate prior to the inauguration of Texas Power & Light Company service.

We of this Company are proud that we have been able to contribute immeasurably to the standard of living in Texas, and that we have been the means of stimulating and encouraging industrial development of all kinds by affording industries of every type economical and dependable

Chevrolet Announces Two New Lines for 1935

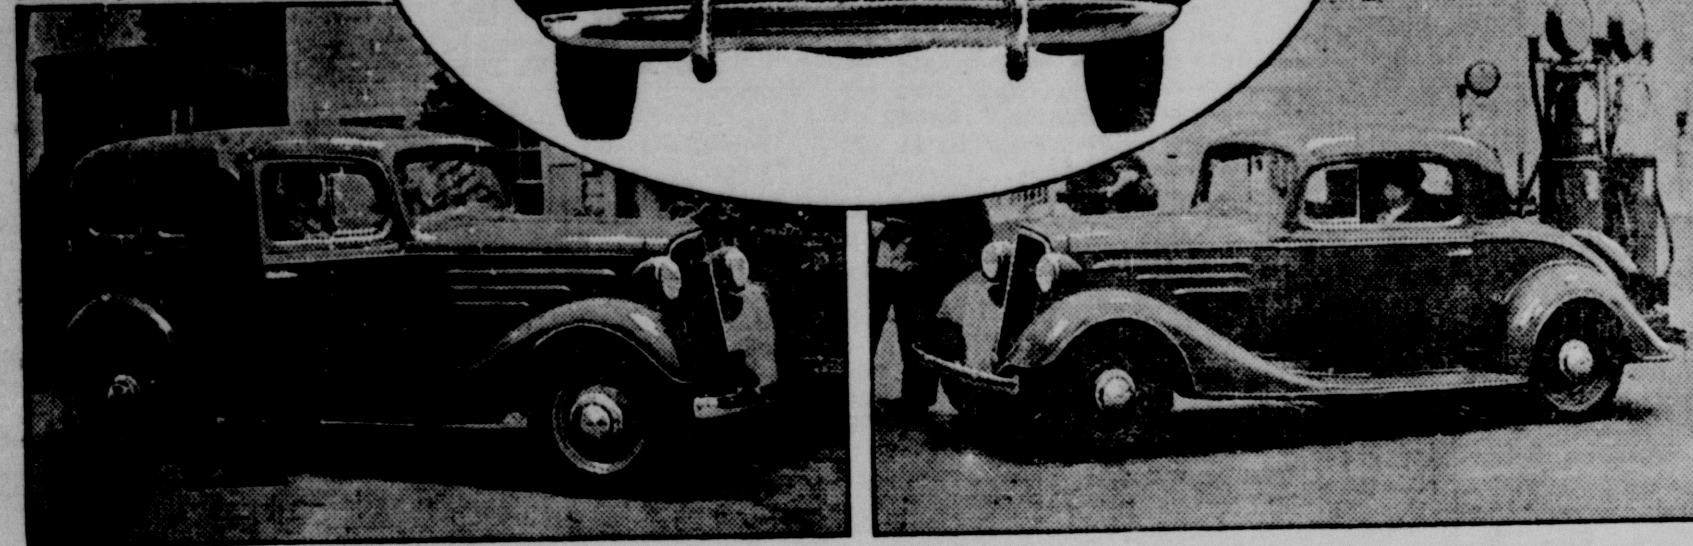

The Coupe model typifies the beauty and style of Chevrolet's New Master De Luxe series for 1935. Improved performance and exceptional economy also characterize these cars.

Fleet, graceful lines also mark the New Master De Luxe Sport Sedan. Ample luggage space is provided by the built-in trunk, and a luggage compartment behind the rear seat cushion.

Right: Front view of New Master De Luxe Coupe, showing roominess and graceful lines. Below: The Sedan model in the New Standard series, which, powered by the time-proven Master engine, combines brilliant performance with smartness and style.

Another attractive model in the New Standard series is the Coupe pictured here. Numerous body and chassis refinements in conjunction with the Master engine, unite to make these cars outstanding values in the lowest-priced field.

Typical of Chevrolet's two new lines of cars are the models illustrated here. The Master De Luxe series reveals strong emphasis on beauty and style. Mechanically, the Master De Luxe and the New Standard series have much in common, including the Master engine, in which numerous refinements have been made to enhance performance, durability and economy. As these pictures reveal, the New Master De Luxe departs distinctly from previous Chevrolets in the striking advances which have been made in body design and trim.

Texas Tells Why Long Is Popular In Louisiana State

Jim Tucker, Waco Times-Herald writer, who is now on a hunt in Louisiana, explains just why Huey Long is so loved to be the Kingfish of Louisiana, in the following article:

"We learned lots of things en route to the Louisiana marches and down in the marshes. And all we learned was not how to lead ducks and geese. We learned much about trapping. For the 100,000 acres of land that H. I. Litchford owns just across the Texas border in Louisiana and known as Comanche marsh is used for trapping mink, muskrats, coons and other. We caught on a small pond of five hundred in the marsh, valued at about \$10,000. The trappers go to their traps daily and it is indeed a hard day's work to bring through the marshes to cover the 950 acres that each trapper has. Oftentimes in the traps there are mallard ducks, marsh hens, and perhaps a coon, but if a coon is trapped there is never over one caught in this manner. That one makes so much noise that he scares all others away.

"Furthermore we learned that the natives for the first 65 miles that you travel in Louisiana are for Huey Long to a man. Their admiration for him almost reaches a worshipping point, and they can give you many good reasons. They admit that Huey likes to see his name in print, that he likes to be boss, but add that they are tenfold better off under Long's regime than ever before in the history of the state. He is the friend of the poor man and they will immediately show you why. We were awaiting a ferry as we conversed with one of the natives. He pointed out that we would ride that ferry without cost, and that before the days of Huey Long, everybody had to pay to get across. Long has seen to it that every road in Louisiana is either paved or gravelled. He has come to the aid of the ignorant, and according to these people he has done so much good, that it is so far overshadowed what little harm he has done, that the latter pales into insignificance. They are for him to a man, and so long as that feeling exists, we see no particular reason for a change. Huey Long is called the Kingfish over there, and they like it. Such being the case, we cannot see that it is

any of our business just what he does in his home state, and that when they get so they do not like it over there, they will not ask the Texans for any help in kicking him out."

T. K. Rea Died At Hamilton Co. Home Friday Morning

T. K. Rea, prosperous Hamilton County farmer and brother of the late John P. Hoff of Comanche, died at his home in Hamilton County between Pottsville and Indian Gap at 8:30 o'clock Friday morning following a stroke of paralysis which he suffered on Christmas Day. Interment was made in the Rea Cemetery near the family homestead Saturday, the services being conducted by the pastor of the Lutheran Church at Pottsville.

Mr. Rea was born in Norway 29 years ago and came to America with his parents when about eight years of age, the family settling in Wisconsin where he grew to manhood. He was married in that state to Miss Helen Mattson who survives him. Twenty-eight years ago they came to Texas and settled the farm where he was making his home at the time of his death. Mr. Rea, true to the characteristics of the people of his native country, was thrifty and industrious and soon acquired considerable land holdings in Hamilton and Comanche Counties. He and Mrs. Rea reared and educated a family of six children. They are, Clarence and Norman who live on the family homestead; Milton, who lives in the same community; Dr. Melvin Rea of Dallas; Mrs. Mildred Anderson of San Antonio, who as Miss Clara Rea was once a domestic science teacher in Comanche High School; and Mrs. B. K. Tenney of Austin.

Brothers and sisters surviving in addition to Mrs. Hoff are: Mrs. John Swanson of Clifton, O. K. Rea of Pottsville, Peter E. Rea of Joliet, Illinois; H. K. Rea of Dallas and Oscar J. Rea of Clifton.

When a child, Mr. Rea was confirmed as a member of the Lutheran Church and remained a member the rest of his life.

WORK ABOUT NEW OFFICIALS (Continued from First Page)

Haynes, will be retained in that position by Mr. Burton.
B. Ray McCorkle, for seven years Superintendent of the Beat tie Schools, was installed as County Superintendent. Since his nomination in August, Mr. McCorkle has been attending A. & M. College and has just completed his work for a degree which he will receive at the end of the winter term. Mr. McCorkle's experience includes teaching in all classes of schools, from one-teacher rural schools to Comanche High School. He also attended Polytechnic College and John Tarleton, and has made a special study of rural education and agriculture. Mrs. Logan Williams will be assistant to Mr. McCorkle. She was for six years connected with the Beattie School and before her marriage was Miss Addie Welch and taught in the Ranger Schools. She is a graduate of Howard Payne College and attended North Texas Teachers College for three years.

E. R. Armstrong, retiring Tax Assessor, has the distinction of being the first person to hold the combined office of Collector and Assessor of Taxes, taking over the duties Monday. Mr. Armstrong was reared in this county and is a former County Surveyor. John Robertson of the Shrum community will be Chief Deputy in the Assessing Department. He has sided in the office before. Homer Palmer who has been Chief Deputy Collector under Mrs. B. W. Speed will be retained in that position by Mr. Armstrong. Mrs. Golda Edwards will help in both departments on a part-time basis.

Ben Wilhelm is the new District Clerk. He also was reared and educated in Comanche County. His experience covers that of teaching, farming and bookkeeping for several firms. Mr. Wilhelm has been in the office most of the past two months familiarizing himself with the new duties.

There are two new Commissioners, Sam Lewis, of Precinct No. 2 who was appointed a month ago to fill out the unexpired term of Will May, and Ed Lightfoot of De Leon. Commissioner of Precinct No. 4. Both men have lived in the county for many years and they as well as their families have been active in the affairs of the county.

George Wetzel took the oath of office as Justice of Peace, Precinct No. 1 which is the first political office he has ever held. Mr. Wetzel has been in this county for more than thirty years nearly all of which time he was in the banking business, and enjoyed the distinction of being the oldest banker in the county when he retired from that business last week to take up his new duties.

Vivian Cash is the new Constable of Precinct No. 1, however the work is nothing new to him. He has been Deputy under the retiring officer, Sam Switzer, and formerly was Marshall at Pleasant and Deputy Sheriff of Brown County.

Tom E. Reese has entered upon his new duties as District Attorney and is the first person from Comanche County to hold that office since Gib Callaway was elected in 1916. Mr. Reese is a native of Comanche and is a graduate of Comanche High School and later attended the University of Texas Law School for four years. He has served as County Attorney here and is recognized as one of the leading young attorneys of this section of Texas.

Hold-over officials who were re-elected include C. C. Hamilton, County Attorney; Dwight Brightman, Sheriff; P. A. Pettit, Surveyor; F. L. Little, Commissioner; Prec. No. 1: E. H. McCarty, Commissioner; Prec. No. 2: C. E. Denny, Public Weigher; Prec. No. 1: J. H. Harrison, Public Weigher; Prec. No. 2: Mrs. Tonnie Sadler, Justice of Peace; Prec. No. 2: J. M. Howell, Justice of Peace; Prec. No. 4: W. B. Smith, Justice of Peace; Prec. No. 5: P. E. Barnes, Justice of Peace; Prec. No. 6: E. H. Little, Constable; Prec. No. 2: and W. B. Dusen, Constable; Prec. No. 5.

WORK ABOUT WILLIAMS NOW (Continued from First Page)

sumed his new duties and his place at Comanche has been taken by Gus Frozard who was transferred from the Ballinger store.

Mr. Williams is the eldest son of Mr. and Mrs. T. J. Williams of Comanche and has been associated with the Higginbotham store since reaching manhood. He was with the firm at De Leon before being transferred to Comanche about two years ago.

The De Leon store is one of the first founded by the Higginbotham Brothers and is one of the pioneer establishments in this county and for years has enjoyed a wide business. It does a general business including lumber and undertaking departments.

Mr. Singleton has not announced his plans.

Semi-Centennial Was Celebrated In 1886 At Dallas

While Texas cities continue to formulate their plans for the commemoration of the Centennial of Texas' independence in 1935 by a series of historical celebrations complementing a huge industrial exposition, reflecting the modern aspect of Texas' economic life, in Dallas, old timers there are recalling that, in Dallas, in 1886, was held the Semi-Centennial observance of the freeing of Texas from the Mexican yoke.

Many Texans and even Dallasites have forgotten that Dallas was selected by the veterans of the Revolution themselves for the golden anniversary of that historic event and that, fifty years ago, exactly 172 survivors of the Battle of San Jacinto and other battles of the Revolution, including Col. Stephen W. Blount of San Augustine, last surviving signer of the Texas Declaration of Independence, came to Dallas in the spring of that year, for this historic celebration.

Dallas in 1886 was a city of not much more than 25,000 inhabitants and the task of raising several thousand dollars to stage the celebration of that year was infinitely greater than that of raising several millions today for the hundredth anniversary of Texas' birth. But then as now the civic leaders of Dallas grasped the opportunity of honoring the heritage of all Texans and the affair, begun months before, largely through the impetus of Major John Henry Brown then Mayor of Dallas and a veteran of both the Mexican and Civil Wars and a leading Texas historian, was carried to a successful conclusion.

Aside from Colonel Blount, among the men famous in the early days of Texas history, who attended, were Col. Coses Austin, nephew and secretary to Stephen F. Austin; Col. R. P. Crockett, only surviving son of the immortal David Crockett; Col. John S. (Rin) Ford, noted border war captain; Capt. Shavley Ross of Waco; Capt. W. A. (Big Foot) Wallace; Col. George P. Erath and Judge William L. Hunter of Austin, one of two men then living, who had survived the massacre at Goliad; Col. Charles De Morse, the San Jacinto veteran, who founded the Clarksville Standard in 1841, responded the address of welcome.

The Dallas News, recalling the gathering, notes that these were largely the youngsters of 16, 18 and 20 years of age in 1836—their elders such as Sam Houston and other leaders having died ten, twenty and even longer years before. Those attended formed the living link with the most historic pages of Texas history.

The reporter of The News of that day, viewing the veterans assembled, might have had some vision of plans for the hundredth anniversary, when added to his story:

"Here are a collection of memories to excite the patriotic impulses of Texans in the future whenever a cause comes up that should call them into play. The State whose foundations are laid in blood is the most prolific in the birth of patriotic emotions."

Golden Wedding Anniversary Was Celebrated Dec. 23

The children and relatives of Mr. and Mrs. John B. Evans, of Sidney, met at the home Dec. 23 to celebrate the golden wedding anniversary of the couple.

A dinner at noon was served picnic style to about fifty guests, and many more persons called in the afternoon.

Mr. and Mrs. Evans came to Texas thirty years ago from Alabama, and settled in the Sidney community where they have lived continuously with the exception of two years spent in Nolan County.

Mr. Evans is 74 years of age and Mrs. Evans is 66. They are the parents of ten children, eight of whom are living. There are six grandchildren and two great grandchildren.

The children are: Joe Evans of Caddo, Jeff Evans, Sid Evans, Herman Evans and Clifford Evans, and Mrs. H. T. Redwine, Mrs. W. L. Prater, and Mrs. N. E. Graham all of Sidney, and all were present at the celebration.

Music and singing were features of the afternoon, with Luther Redwine and Cyril Jones furnishing the music.

Other relatives and friends present were: I. O. Boyd, Mrs. Zeta Kemper and son, Mrs. Dora Boyd, Mrs. Romeo Ferguson, Mr. and Mrs. Euel Ferguson and daughter, Mr. and Mrs. B. J. Cox, Mr. and Mrs. Damon Hall, Mr. and Mrs. L. G. Stewart and family.

Mr. and Mrs. A. E. Boyd and family, Mr. and Mrs. J. W. Bartlett and son of Sidney; Mr. and Mrs. Bart Boyd and family, Mr. and Mrs. Zola Boyd, Blanton Boyd, Weyland Boyd of Abilene; Marie Walker of Pecos, and Marion Lusk, Miss Paula Lusk and Euel Jones of Sidney.

MORE ABOUT SHERIFF BRIGHTMAN (Continued from First Page)

The appointment is under the Civil Service Department and came as the result of an examination under General Purvis and upon recommendations as to qualifications and character by citizens of this county and upon the recommendation of U. S. Senator Tom Connally and others.

Mr. Brightman signed for duty at any point in the United States or its possessions. He does not know where he will be located after the three months training course has been completed.

Mr. Brightman is the son of Mr. and Mrs. O. O. Brightman of Comanche. He was born in Coleman County but moved to Comanche when two years of age. After graduating from Comanche High School, he enlisted in the army during the World War at the age of 17 and served until after the close, being in France at the time of the Armistice.

After his discharge from the army, he entered the cotton and grain business with his father here and was in that business when he was elected Sheriff.

He was 33 years of age when he took the oath as Sheriff in 1931, being the youngest person ever to hold that office in this county.

Mr. Brightman was married to Miss Corine Luker of Proctor in 1921. She and their two children, Jack and Jane will remain in Comanche until after the close of school.

veyed to determine whether or not a lake would be practical at that point.

Erath and Comanche Counties are among the sixty-five composing the reclamation district, that is, they lie within the water-shed area of the Brazos and its tributaries. They will be affected either directly or indirectly by the work of the conservation program according to the nearness of a dam site in this section.

Resolutions and plans were made at the meeting of the Board in Temple for presenting the entire program to Congress for the purpose of securing a fifty million dollar appropriation for flood control in the Brazos water-shed area. This loan would come out of the Rivers and Harbors appropriation.

The plans call for twelve major dams, from thirty to fifty smaller dams, and thousands of small soil erosion dams. Agitation is also on foot, according to Hallmark, to secure dams in two other places near Dublin, one on the Bosque at Clairette and one on the Green Creek at Alexander, the Progress stated.

Hallmark also explains that in case the federal loan is secured and the program goes forward, the interest shown by the people in this section will play an important part in securing a dam site here. He states further, that possibility of the federal loan may be aided by pressure and contact with senators from this district.

Notice To Orchardists

AND OTHERS WHO PLAN TO PLANT
FRUIT TREES THIS YEAR

The continued drouth, in this section, makes it impractical to put fruit or nut trees out now.

There is absolutely no bottom season and the losses which would result from planting at this time would be tremendous.

We have not yet placed our trees on the market because of this fact, but will have a stock of nut and fruit trees equal to the best when we believe it advisable to plant.

Be sure to inspect our trees and get our prices before you place orders.

We are prompted to place this notice in the paper due to the fact so many have come to us for advice concerning the advisability of planting trees when it is so dry.

Gives History of Baptist Church in State of Texas

Baptists in Texas have a particular interest in the historical aspects of the approaching celebration of the Centennial of Independence in 1936 as it was in the blacksmith shop of a Baptist preacher that the Texas Declaration of Independence was signed March 2, 1836. The convention met in Washington, a small community on the Brazos River, and the best convention hall available to the delegates was the shop of the Rev. N. T. Byars.

Two Baptist preachers were among the men who met death with Fannin in the tragedy at Goliad.

Many of the early colonists were Baptists although, previous to the establishment of the Republic, all settlers were presumed to be Catholics, the official religion. Among Austin's famous first colony of 300 families in 1821-22 there were at least eleven Baptist families. Between 1822 and 1836, there were some twenty Baptist preachers in Texas and three Sunday Schools and two churches.

Clad in buckskin and driving a team of oxen, the Rev. Joseph Bays, a lusty North Carolinian, in 1820 was the first Baptist preacher to appear in Texas. A few months later he held the first Baptist services in Texas at a two-story log house of Joseph Hinds, near San Augustine. In 1822, Freeman Smalley, another Baptist minister, carrying a rifle and a Bible, made his way on foot from New Orleans to the Red River settlement of Jonesboro, near the present town of Clarksville.

In a dirt-floored log hut with hewn logs for pews, in San Felipe, in 1829, Thomas J. Pilgrim, a young college graduate, organized the first Baptist Sunday School in Texas.

Most unusual was Texas' first Baptist Church, which actually migrated into Texas. The Rev. Daniel Parker of Illinois, while on a visit to Texas in 1832 constructed the Mexican colonization laws as forbidding the "organization" of any other than a Catholic Church, but as not forbidding the "immigration" of one. He returned to Illinois, there organized his followers into a church and set out with them for Texas in wagons, holding services en route. In Claiborne Parish, La., seven additions were made to the wagon train church.

In Texas, the itinerants held services for over a year in Austin's colony, but with the gathering of war clouds of the Texas Revolution, this "Pilgrim church," as it was known, moved to East Texas. There services were held in a territory embracing twenty counties, and nine churches eventually grew out of the organization.

In 1837, the famous Missionary Baptist Church was organized in Washington-on-the-Brazos. The Old North Church, near Nacogdoches, had its beginning when Elder Isaac Reed preached under a spreading oak tree there in 1834. Other early churches were the Independence Church, 1839; the Plum Grove Church, near La Grange, 1839; the Travis Church, 1839, and the First Baptist Church, Houston, 1841.

Among the pioneer Baptist preachers of Texas were: R. E. B. Baylor, James Huggins, William M. Tryon, Hosea Garrett, Z. N. Morrell and Isaac Crouch.

IS a constant headache keeping you miserable? Do you suffer burning, scanty or too frequent urination; attacks of dizziness, rheumatic pains, swollen feet and ankles? Do you feel tired, nervous all the time?

Then give some thought to your kidneys. Be sure they function properly, for functional kidney disorder permits poisons to stay in the blood and upset the whole system.

Use Doan's Pills. Doan's are for the kidneys only. They help the kidneys cleanse the blood of health-destroying poisonous waste. Doan's Pills are used and recommended the world over. Get them from any druggist.

William Skipping, Former Bank Head, Buried At Zephyr

William Skipping, 73, bank president and farmer of Zephyr, died at Austin at 4 o'clock Friday afternoon, according to the Brownwood Bulletin. The body was returned to the home for burial, and funeral services were held Saturday afternoon at the Methodist Church at Zephyr with Rev. C. A. Wilkerson officiating.

Mr. Skipping was for 18 years president of the former First State Bank of Zephyr, and also owned extensive farming lands in the Zephyr section. He had been in ill health for more than two years before his death.

He was a member of the Methodist Church for 21 years and took an active part in the organization until ill health prevented his activity.

He is survived by his wife and eight children. They are H. L. Ernest and Jene Skipping all of Zephyr; Mrs. Inez Dudley, and Mrs. G. A. Boland of Dallas; Mrs. Floyd Gentry of Abilene, C. A. Skipping of Desdemona and W. R. Skipping of Longview. He is survived also by three sisters, Mrs. W. A. Brown, Mrs. C. Hayes and Mrs. D. C. Childs, all of Waco.

Burialbearers were: John Yantis, L. Johnston, A. B. Driskoll, Frank Green, Elmer Petty, Chas. Forsythe, Hubert Lock, Hance Cobb and Jack McDaniel.

Black-Draught Good For Biliousness and Bad Taste in Mouth

"I have found Thedford's Black-Draught so good for biliousness, bad taste in the mouth and other disagreeable feelings due to constipation," writes Mrs. Mary Garner, of Burleson, Texas. "My mother used it for a number of years and we do not think there is a better medicine. I was pleased when I saw Syrup of Black-Draught advertised. I sent for it and gave it to my children (as a laxative) for colds and when they felt bad. Soon they felt fine." . . . SANDY LAND STA. MAY BE PLANTED IN THIS SECTION

Brownwood Chamber of Commerce
Is Urging Placing Experiment
Station in This Section

Comanche County is one of the four counties that has been suggested as a location for a Government Experiment Station in the Sandy Land Belt, according to the following from the Brownwood Bulletin:

Efforts of Brownwood Chamber of Commerce to secure establishment of an agricultural experiment station in the sandy land sections of either Brown, Callahan, Eastland or Comanche Counties are being continued. Letters have been written to Senator Morris Sheppard, Senator Tom Connally, to congressmen and to A. B. Conner, director of Texas Agricultural Experiment Station at A. & M. College. Chambers of Commerce and other interested citizens at Rising Star and Cross Plains are cooperating in the move.

The letter written by the Brownwood Chamber of Commerce on the matter is as follows:

"The farmers of a large area in this section are intensely interested in the establishment of an agricultural experiment station somewhere in the sandy lands, either in Brown, Callahan, Eastland or Comanche Counties. If located in either one of these four counties, the station will be more accessible to all the sandy land area.

Large Area Not Served
"The principal soil and climatic regions of Texas have the benefit of agricultural experiment stations research except the sandy lands of this region. The area of Western Cross Timber sandy land extends from Arlington on the east to nearly Abilene on the west and from Red River south to the Rio Grande. The results obtained at the experiment stations at Denton, Spur and Big Spring are of very little value, if any, to this area as we are in an entirely different soil and rainfall region. The Denton and Spur results are applicable to our black lands but not the sandy lands.

"The farmers of this vast area of sandy land continue to grow mainly cotton and corn, due chiefly to the fact that they do not know that other crops, better adapted to this climate and soil, would be more profitable. This region is particularly adapted to apples, peaches, plums, grapes, pears, peanuts, sweet potatoes, watermelons, cantaloupes, blackberries, dewberries, etc. but experimental work is needed on these fruits and crops to determine the best varieties and best fertilizer.

"These sandy soils lose their fertility rapidly after a few years cultivation due to the low organic matter, leaching and erosion. On the other hand they can be reclaimed readily by applying manure, or by plowing under green crops and by the use of commercial fertilizer.

Four Fold Purpose
"An experiment station in this area could serve a four fold purpose to-wit: terracing to prevent erosion, growing winter cover crops to stop or retard wind erosion, to make variety tests and soil fertility studies. The soils of this region are alkaline in reaction and therefore the fertility can be easily built up and retained. The present method of farming and cropping system has brought this area a very low agricultural value.

"Time was when the farms in the sandy land section were the most profitable in this part of Texas. The farmers were prosperous and rarely ever had to borrow money to finance their operations from year to year. With the depletion of the soil, chiefly from planting the wrong crops, the income of the farmers has decreased year by year and the value of the lands likewise. Most of the farmers in this great area own their homes which they can not sell and are forced to stay there even though they eke out a mere existence.

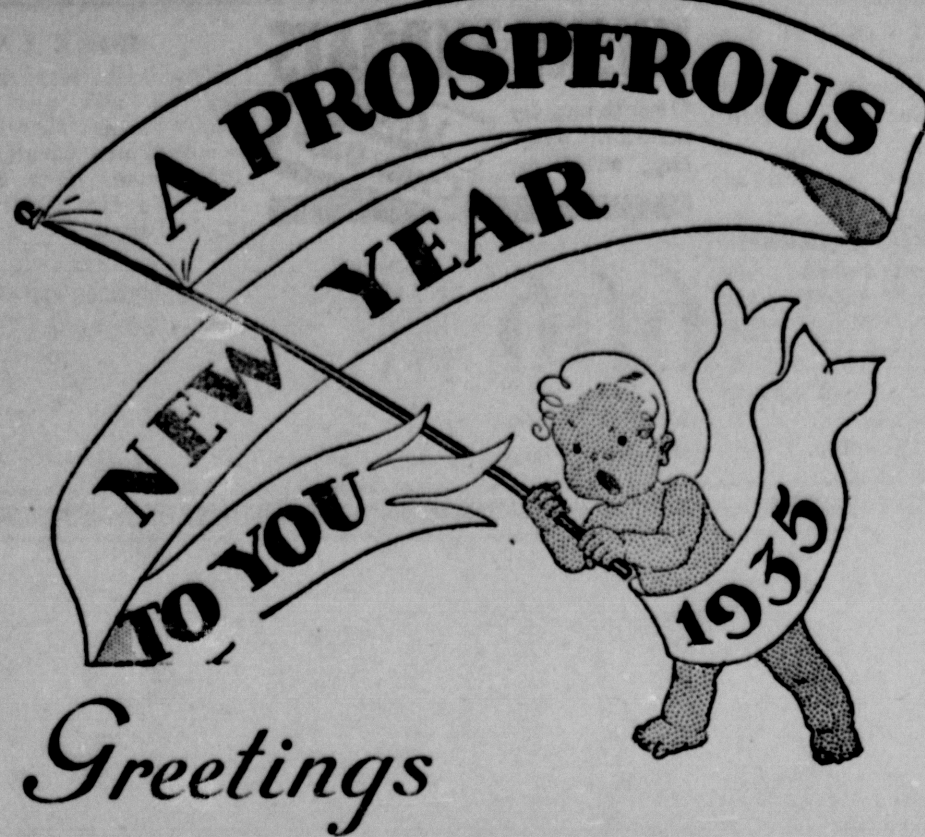

"With the help and influence of an agricultural experiment station this situation can be changed quickly and the farms made what they were twenty-five years ago, highly profitable.

"We respectfully ask that you use your good influence toward securing the cooperation of the Department of Agriculture in the establishment of an experiment station in this sandy land area."

CIMANCHE TRAIL COUNCIL TO MEET AT BROWNWOOD ON JANUARY THE 15TH

All Scouters of the Comanche Trail Council will gather at the First Presbyterian Church in Brownwood for the Annual Meeting of the Comanche Trail Council, which will begin at 2 p. m. January 15th. The meeting will be convention type during the afternoon, closing with a banquet that will start at 6:30 p. m.

All registered Eagle Scouts are expected to attend, and a special program is being arranged for them.

Greetings

ON THIS THE FIRST Week of the New Year we greet our friends—our patrons—and thank them for their loyal patronage—continued confidence and hearty co-operation during the past year.

MAY THE NEW Year bring to you—and yours, rich material blessings—good health—and happiness in sufficient abundance to cause you to completely forget any heart-breaking worries or financial disappointments which may have been yours during recent months.

AS IN THE PAST—You may count on our fullest co-operation that it may be so.

PERHAPS It is unnecessary to say to you that we are fully prepared to render the best of service—and that from season to season you'll find here first—the newest merchandise—at lowest prices—and in quantities sufficient for all.

AGAIN WE THANK YOU And hope to see you many—many times during 1935.

Mrs. J. R. Davenport Is Buried Wednesday At Indian Creek

Mrs. J. R. Davenport, for 44 years a citizen of Comanche County, died at a Santa Anna hospital January 1 at noon following an illness since last July. She had been in the hospital since Dec. 27. Funeral services were held Wednesday afternoon at the Indian Creek Cemetery with Rev. J. D. Smoot assisted by Rev. B. W. Kramer officiating.

Mrs. Davenport, who was Miss Amanda Virginia Sudduth before her marriage, was born in Cleburne County, Arkansas June 12, 1870. She grew to womanhood in that state where she was married in 1885 to J. R. Davenport, who survives her. Three years later in 1888 they came to Texas and settled in Comanche County near Indian Creek. In 1911 they moved to Comanche.

Children surviving are Rev. Robert H. Davenport of Santo and Mrs. A. C. Jones of White Flat. Five children are deceased. They are Buelah C. who died in 1903; A. H. Davenport and Harvey S. Davenport who died at Indian Creek in 1919; Elijah Monroe Davenport who died in 1914 and Grady Earl who died here in 1912.

Mrs. Davenport was converted in early life and united with the Methodist Church and had been a member at Indian Creek for more than 40 years.

The following prayer was written by Mrs. Davenport the day she left for the Santa Anna hospital, and was found under her pillow: "Loving Father I ask thee in the name of our Blessed Master to guide our every thought and action this day. Help us to forget self in being of service to others that Thy Kingdom may be manifest to us and all those we come in contact with.

"So fill our hearts with tender love and understanding that others by our example will be attracted to the Blessed Master.

"Help all who suffer and those who are in trouble. Show them that thy yoke is easy and thy burden light, if they will but obey Him."

Auto Tags For 1935 Are To Be Maroon and White

Automobile license plates for 1935 of all Texas motor cars will be a product of the penitentiary at Huntsville. They will be ready for delivery February 15, 1935. County tax collectors will receive 1,389,000 pairs of the plates, to be attached to all vehicles on or before April 1.

Material for the work, including 25 carloads of sheet metal, enamel paint and shipping boxes, has been contracted for at a cost in excess of \$50,000. Machinery to make the plates, bought by the State, cost about \$3,000.

There will be eight different colors for that many types of motor vehicles. Passenger car plates are estimated at 1,100,000; these plates will have white numerals on a maroon background. Quantities and colors of other types are: Commercial vehicles, 150,000, green numbers on gray background; farm vehicles, 75,000, black on orange; trailers, 40,000, orange on black; dealers, 6,500, black on green; motor buses, 1,500, gray on green; tax exempt (government owned) autos, trucks and trailers, 12,000, white on black; motorcycles, 4,000, black on orange, and sidecars, 500, orange on black.

C. E. Stewart Is Appointed Loan Official Here

C. E. Stewart of Comanche, has been appointed local representative of the Stephenville Production Credit Association of Stephenville, and is ready to assist farmers and stockmen in preparing necessary papers to apply for loans for crop or livestock production purposes.

Mr. Stewart has been authorized to write applications and to help farmers in Comanche County and others who prefer to apply at Comanche, in closing their loans. Thus local farmers and stockmen are saved the necessity of making a trip to the headquarters office of the Association to arrange for loans.

During the past year many farmers in this community and thousands of others in all parts of Texas have been provided with necessary money to finance crop and livestock production at an interest rate as low as five per cent. Those in this community who will be in need of additional working capital and wish to file applications for loans may get in touch with Mr. Stewart, who can supply all needed information.

Production credit loans are made upon adequate security to responsible farmers who can furnish a definite budget plan for repayment. This form of credit has been worked out to meet needs of farmers and stockmen and is an important part of the Farm Credit Administration's program of helping farmers to help themselves.

Mechanics School Is In Progress At Local Motor Co.

A modern adaption of the "little red schoolhouse"—this time in the form of a traveling school for motor car mechanics—rolled into Comanche yesterday. It was housed in a trim Ford V-8 Sedan Delivery Truck, equipped for mechanical demonstrations of the proper methods of servicing Ford cars of all types. Headquarters during its stay will be at Comanche Motor Co., local Ford dealer.

The "school on wheels", which is under the direction of the Dallas branch of the Ford Motor Company, is similar in theory to many new traveling schools which "carry the school to the student." The school truck is equipped with tools of every description to illustrate the most modern methods of motor car servicing employed by Ford dealers.

Thirty-two such traveling schools, one in each Ford branch territory in the United States, have been inaugurated by the Ford Motor Company for the benefit of Ford owners. Classes which are being conducted daily in all parts of the country are under the direction of a factory representative charged with the task of visiting Ford dealers for the purpose of instructing their mechanics in the latest approved methods of servicing and maintenance.

Through the classes mechanics are given the benefit of thorough training in every phase of Ford service—not only the more important major operations but also in methods of facilitating properly maintenance and adjustment operations and minor repairs.

In the course of yesterday's classes, lessons were given in Ford engine constructions. A thorough discussion was held of the theory and practice of motor tune-up. Special emphasis was given to the new Ford cylinder assembly exchange policy, under which the old practice of engine overhaul is replaced by purchase and installation of engines reconditioned at the factory.

Instruction was given in the servicing and repair of the Ford carburetor, distributor and fuel pump, as well as other units of the electrical system, and the cooling system.

The school will be conducted again tonight at the service department of Comanche Motor Co., local Ford dealer. (tf)
